

Codebook Regional Authority Index (RAI)

Regional Scores Dataset

version July 2015

Citation for the dataset:

Hooghe, Liesbet, Gary Marks, Arjan H. Schakel, Sandra Chapman Osterkatz, Sara Niedzwiecki, Sarah Shair-Rosenfield (2016). *A Postfunctionalist Theory of Governance. Volume I: Measuring Regional Authority*. Oxford: Oxford University Press.

Data for the Regional Authority Index (RAI) are in two datasets: one with annual scores for 231 regional governments/tiers in 65 countries for the period 1950-2010, and one aggregating these scores to the country level plus with country-level scores for another 16 countries that do not have regional governments fitting our conceptualization below. Regional authority is measured along ten dimensions. The following documents accompany the datasets:

- Codebook of regional scores dataset (this document)
- Codebook of country scores dataset
- Calculation of country scores

Unit of analysis

The unit of analysis is the individual region which we define as a jurisdiction between national government and local government. We draw the boundary between local and regional government at an average population level of 150,000. This excludes the lowest tier of government, but allows us to capture intermediate governments, often arrayed at two nested jurisdictional levels between the local and national. We relax the population criteria for individual jurisdictions that stick out from a tier of government that meets the regional threshold, such as Greenland or the Galapagos islands.

We distinguish four types of regions.

- A *standard region* (S) is part of a regional tier. Standard regions have a uniform institutional set up. Hence, standard regions are scored in a tier (e.g. Changwat, Cantons, Länder), each of which has a separate entry in the dataset. Each year of evaluation has a separate row.
- An *asymmetric region* (Y) is embedded in a national tier, yet has distinctive authority on one or several dimensions of the RAI. Asymmetry is usually specified in one or more executive decisions, constitutional articles, or special clauses in framework legislation.
- An *autonomous region* (A) is exempt from the country-wide constitutional framework and receives special treatment as an individual jurisdiction. It operates mostly in a bilateral setting with the central state alone. The arrangement is laid down in a special protocol, statute, special law, or separate section of the constitution.

- A *dependency* (D) is not part of a standard tier, but is governed hierarchically by the central state. It has a separate government with no, or very little, authority.

If a non-standard region becomes a standard region, it ceases to have a separate entry but is simply included in the standard tier. Conversely, a standard region that becomes non-standard acquires a separate entry from the year of its changed status.

Regional tiers and differentiated regions are evaluated on the same scale. We evaluate five dimensions of self-rule: institutional depth, policy scope, fiscal autonomy, borrowing autonomy, and representation. We evaluate five dimensions of shared rule: law making, executive control, fiscal control, borrowing control, and constitutional reform. There are two forms of shared rule. We code a region as having multilateral shared rule when its authority is contingent on coordination with other regions. We code a region as having bilateral shared rule when its authority is not contingent on coordination with other regions.

For a detailed discussion of the coding schema, please read:

Hooghe, Liesbet, Gary Marks, Arjan H. Schakel, Sandra Chapman Osterkatz, Sara Niedzwiecki, Sarah Shair-Rosenfield (2016). Chapter Three: How We Apply the Coding Scheme. *A Postfunctionalist Theory of Governance. Volume I: Measuring Regional Authority*. Oxford: Oxford University Press.

VARIABLE NAME	RANGE	VALUES AND LABELS
cowcode	2-920	Correlates of War codes (http://www.correlatesofwar.org)
iso3166	8-891	International Organization for Standardization (ISO 3166-1)
country_ID	1-126	Country ID (see table below)
country_name		Country name in English (see table below)
abbr_country		Abbreviation of country name
region_ID	101-12605	Region ID (see table below)
region_name		Name of region in local language (see table below)
year	1950-2010	Year of evaluation
tier	1-4	1: highest tier 2: second tier 3: third tier 4: fourth tier
type		S: standard region Y: asymmetrical region A: autonomous region D: dependent region
tier_instdepth	0-3	The extent to which a regional government is autonomous rather than deconcentrated: 0: no functioning general-purpose administration at regional level 1: deconcentrated, general-purpose, administration 2: non-deconcentrated, general-purpose, administration subject to central government veto 3: non-deconcentrated, general-purpose, administration *not* subject to central government veto.
tier_policy	0-4	The range of policies for which a regional government is responsible: 0: very weak authoritative competence in a), b), c), d) whereby a) economic policy; b) cultural-educational policy; c) welfare policy; d) one of the following: residual powers, police, own institutional set-up, local government 1: authoritative competencies in one of a), b), c) or d) 2: authoritative competencies in at least two of a), b), c), or d) 3: authoritative competencies in d) and at least two of a), b), or c) 4: criteria for 3 plus authority over immigration or citizenship.
tier_fiscauto	0-4	The extent to which a regional government can independently tax its population: 0: central government sets base and rate of all regional taxes 1: regional government sets the rate of minor taxes 2: regional government sets base and rate of minor taxes 3: regional government sets the rate of at least one major tax: personal income, corporate, value added, or sales tax 4: regional government sets base and rate of at least one major tax.

tier_borrowauto	0-3	The extent to which a regional government can borrow: 0: the regional government does not borrow (e.g. centrally imposed rules prohibit borrowing) 1: the regional government may borrow under prior authorization (<i>ex ante</i>) by the central government and with one or more of the following centrally imposed restrictions: a. golden rule (e.g. no borrowing to cover current account deficits) b. no foreign borrowing or borrowing from the central bank c. no borrowing above a ceiling d. borrowing is limited to specific purposes 2: the regional government may borrow without prior authorization (<i>ex post</i>) and under one or more of a), b), c), d), e) 3: the regional government may borrow without centrally imposed restrictions.
tier_rep	0-4	The extent to which a region has an independent legislature and executive, which is the sum of <i>assembly</i> and <i>executive</i> .
tier_lawmaking	0-2	The extent to which regional representatives co-determine national legislation, which is the sum of <i>law_a</i> to <i>law_f</i> .
tier_execon	0-2	The extent to which a regional government co-determines national policy in intergovernmental meetings, which is the maximum value of <i>execon_multi</i> (<i>lateral</i>) and <i>execon_bi</i> (<i>lateral</i>).
tier_fiscon	0-2	The extent to which regional representatives co-determine the distribution of national tax revenues, which is the maximum value of <i>fiscon_multi</i> and <i>fiscon_bi</i> .
tier_borrowcon	0-2	The extent to which a regional government co-determines subnational and national borrowing constraints, which is the maximum value of <i>borrowcon_mult</i> and <i>borrowcon_bi</i> .
tier_constit	0-4	The extent to which regional representatives co-determine constitutional change, which is the maximum value of <i>constit_multi</i> and <i>constit_bi</i> .
tier_selfrule	0-18	The authority exercised by a regional government over those who live in the region, which is the sum of <i>tier_instdepth</i> , <i>tier_policy</i> , <i>tier_fiscauto</i> , <i>tier_borrowauto</i> , and <i>tier_rep</i> .
tier_sharedrule	0-12	The authority exercised by a regional government or its representatives in the country as a whole, which is the sum of <i>tier_lawmaking</i> , <i>tier_execon</i> , <i>tier_fiscon</i> , <i>tier_borrowcon</i> , and <i>tier_constit</i> .
tier_RAI	0-27	Regional authority index, which is the sum of <i>tier_selfrule</i> and <i>tier_sharedrule</i> .
COMPONENTS		
instdepth	0-3	Same as <i>tier_instdepth</i> .
policy	0-4	Same as <i>tier_policy</i> .
fiscauto	0-4	Same as <i>tier_fiscauto</i> .
borrowauto	0-4	Same as <i>tier_borrowauto</i> .

assembly	0-2	0: no regional assembly 1: indirectly elected regional assembly 2: directly elected assembly
executive	0-2	0: regional executive appointed by central government 1: dual executive appointed by central government and regional assembly 2: regional executive appointed by a regional assembly or directly elected
law_a	0-0.5	0: a region or regional tier is <i>*not*</i> the unit of representation in a national legislature 0.5: a region or regional tier is the unit of representation in a national legislature
law_b	0-0.5	0: a regional government or regional tier does <i>*not*</i> designate representatives in a national legislature 0.5: a region or regional tier designates representatives in a national legislature
law_c	0-0.5	0: regions do <i>*not*</i> have majority representation in a national legislature based on regional representation 0.5: regions have majority representation in a national legislature based on regional representation
law_d	0-0.5	0: the legislature based on regional representation does <i>*not*</i> have extensive legislative authority 0.5: the legislature based on regional representation has extensive legislative authority
law_e	0-0.5	0: the regional government or its regional representatives in a national legislature are <i>*not*</i> consulted on national legislation affecting the region 0.5: the regional government or its regional representatives in a national legislature are consulted on national legislation affecting the region
law_f	0-0.5	0: the regional government or its regional representatives in a national legislature do <i>*not*</i> have veto power over national legislation affecting the region 0.5: the regional government or regional representatives in a national legislature have veto power over national legislation affecting the region
execcon_multi	0-2	0: no routine meetings between the central government and regional governments to negotiate policy 1: routine meetings between the central government and regional governments without legally binding authority 2: routine meetings between the central government and regional governments with legally binding authority
execcon_bi	0-2	0: no routine meetings between the central government and the regional government to discuss national policy affecting the region 1: routine meetings between the central government and the regional government without legally binding authority 2: routine meetings between the central government and the regional government with legally binding authority

fiscon_multi	0-2	<p>0: neither the regional governments nor their representatives in a national legislature are consulted over the distribution of national tax revenues</p> <p>1: regional governments or their representatives in a national legislature negotiate over the distribution of national tax revenues, but do not have a veto</p> <p>2: regional governments or their representatives in a national legislature have a veto over the distribution of national tax revenues</p>
fiscon_bi	0-2	<p>0: neither the regional government nor its representatives in a national legislature are consulted over the distribution of tax revenues affecting the region</p> <p>1: the regional government or its representatives in a national legislature negotiate with the central government over the distribution of tax revenues affecting the region, but does not have a veto</p> <p>2: the regional government or its representatives in a national legislature have a veto over the distribution of tax revenues affecting the region</p>
borrowcon_multi	0-2	<p>0: regional governments are not routinely consulted over borrowing constraints</p> <p>1: regional governments negotiate routinely over borrowing constraints, but do not have a veto</p> <p>2: regional governments negotiate routinely over borrowing constraints and have a veto</p>
borrowcon_bi	0-2	<p>0: the regional government is not routinely consulted over borrowing constraints affecting the region</p> <p>1: the regional government negotiates routinely over borrowing constraints affecting the region, but does not have a veto</p> <p>2: the regional government negotiates routinely over borrowing constraints affecting the region, and has a veto</p>

constit_multi	0-4	<p>0: the central government or national electorate can unilaterally reform the constitution</p> <p>1: a legislature based on regional representation can propose or postpone constitutional reform, raise the decision hurdle in the other chamber, require a second vote in the other chamber, or require a popular referendum</p> <p>2: regional governments or their representatives in a national legislature propose or postpone constitutional reform, raise the decision hurdle in the other chamber, require a second vote in the other chamber, or require a popular referendum</p> <p>3: a legislature based on regional representation can veto constitutional change; or constitutional change requires a referendum based on the principle of equal regional representation</p> <p>4: regional governments or their representatives in a legislature can veto constitutional change</p>
constit_bi	0-4	<p>0: the central government or national electorate can unilaterally reform the region's constitutional relation with the center</p> <p>1: a regional referendum can propose or postpone reform of the region's constitutional relation with the center</p> <p>2: the regional government can propose or postpone reform of the region's constitutional provisions or require a popular referendum</p> <p>3: a regional referendum can veto a reform of a region's constitutional relation with the center</p> <p>4: the regional government can veto a reform of the region's constitutional relation with the center</p>
